MESSES. FULTON & PRICE :-Gentlemen: I see by your Weekly issue of December 94th, that in the Convention held at Long Creek Bridge on Saturday, the 18th of said month, for the purpose of passing resolutions favorable to the proposed new county Lillington, I am made to act as one of the committee to represent Rocky Point district. As I took no part in said convention, and did not act as one of the committee and my name has been used without my knowledge or consent, and being strenuously opposed to any division of our noble old Democratic county, and having already signed a protest against a division, therefore, to set myself right before my neighbors and friends, as you have this in your next Weekly issue.

I am, truly your friend, JCHN H. SAULS. From the Charlotte Democrat.

Correspondence. The Legislature appointed a Committee to inform the Hon. Thomas Ruffin of his election to the Supreme Court Bench. A friend at Raleigh has kindly furnished us with the correspondence between the Committee and Judge Ruffin, which we publish below:

RALEIGH, Dec. 11th, 1858. Hon. Thos. Ruffin, Dear Sir: In obedience to a Joint Resolution passed by the Senate and House of the Supreme Court of North Carolina, by an almost unanimous vote of both houses of the General Assem-

We are instructed to request you to accept that high | Chestnut. Price 25 cent, 50 cents and \$1. post of honor and duty, to which your State with one voice has called you, and to add another to the long list of eminent services which it has been your fortune to render to your country.

May we be permitted to say that though you cannot increase the measure of your fame, your State hopes that you will continue and prolong the period of your

We cannot cenclude this note without an assurance of our happiness at the course the Legislature has tho't proper to pursue, and an earnest appeal that you will not decline the honor it has sought to bestow. We are, most sincerely, your friends,

W. J. HOUSTON, M. C. WHITAKER. JOHN KERR. W. N. H. SMITH, M. W. RANSOM.

Raleigh, Dec. 15th, 1858. GENTLEMEN: I left home before your letter, informing me, efficially, that I had been elected a Judge of the Supreme Court, and requesting me to accept the high trust, had arrived there; and I have just received it. No event could have been more unexpected by me, or have created more surprise. When, at an advanced age and after long service, I heretofore resigned a seat in that Court, it was with the sincere desire of enjoying the repose and quietness of private life; and I thought then laid down the cares and responsbilities of office forever. It would not be sincere if I were to conceal that it is painful to find myself disappointed.— To give up my retirement is against my feelings and breaks up all my plans for the short remnant of my life; and, after abandoning for six years the study of the law, I feel, and I fear others will feel, that, at the Prepared from a prescription of Sir J. Clarke, M. D. age of seventy-one, it is an act of rashness, unsuitable

But it has pleased the General Assembly to tender this renewed expression of confidence in my diligence and fidelity, and in a manner which touches my sensibilities most deeply; so that I am led to believe that in their opinion and in that of the country, it is my duty to enter once more into public service. Under the circumstances I also suppose it to be obligatory on me to obey the commands of the Legislature. Therefore, as a duty, I forego my own inclinations and accept the office bestowed on me; and will endeavor with what impaired ability I retain, to execute with my associates, its functions. I return to the General Assembly the most un-

station, to which I am called.

to the authority of the public will. The manner in which, gentlemen, you have made the anything hurtful to the constitution. communication to me, and the kind terms in which you | Full directions in the pamphlet around each package, have expressed your hopes and wishes for my usefulness | which should be carefully preserved. in office, lay me under great and lasting obligation to | Sole Agent for the United States and Canada, each of you individually

With high consideration I am, gentlemen, Your faithful friend and servant.

THOMAS RUFFIN. To Messrs. W. J. Houston, M. C. Whitaker, and others, Committee.

A Brain and Nerve People.—One who appears to comprehend the American people, physically speaking, says with no little justice: "The Americans are in fact becoming nothing else but brain and nerve. Fat and fibrine are only valued as they sell in markets, and muscle is only thought of as it pertains to our draught animals. Our stimulating climate and our fast habits makes us so nervous that life is becoming to us but one continued spasm. Our movements are like those of a dancing jack. Even our pastimes are so intense that they fatigue us as much as our business. The so-called rest which we begrudgingly give ourselves wears us as much as our work. We cannot bear to have another called more 'smart' than ourselves, and we will die and be buried rather than not become as rich as our neighbors. There is ever the same unsatisfied restlessness, whether we go abroad or stay at home. Nobody shall travel faster or see a given number of objects in a less number of hours than ourselves, no matter at what cost of money or health. There is no impossible Alps that we will not climb, and no deep cave of earth or sea that we will not explore. There are none who shall not grow numb before ourselves on the highest frozen peak, and there shall be none who can hold their breath longer under water. When the guide is not looking there is no King's throne or Pope's chair on which we will not sit. There is nothing with the scope of human ability which we will not undertake, and when we boast of what we have accomplished there are none who shall draw a longer

Relief Fire Engine Company, held at their Engine House on Monday, January 3d, 1859, the following officers were elected for the ensuing year :

elected; C. A. Mitchell, Secretary, re-elected.

P. P. P. PARK'S PRICKLY PLASTERS.

They soothe pain; they protect the chest; they extract the coagulated impurities and soreness from the system; they impart strength; they are divided in sections, and yield to the motion of the body; they are porous; all impure ex- was considered worthless," (his case was Spavin.) "but cretions pass off, and they cannot become offensive, hence, are freely worn ten times longer than any other plaster, and here.' are cheaper at 25 cents than others at 10. Where these Plasters are, pain cannot exist. Weak persons, public speakers, delicate females, or any affected with side, chest or back pains, should try them. You will then know what they are. They are a new feature in the science of medicine. All Druggists have them. Take no other. Each rapidly, without soreness, and left no scar of account. Plaster bears a Medallion Stamp and our Signature.

LYON'S MAGNETIC POWDERS Will destroy Garden Insects, Cockroaches, Bed-Bugs, Fleas.

Ants, Moths, and all pests of the vermin kind. The importance of a reliable article of this kind is inestimable. In warm weather all nature teems with these annoying foes. This powder is the only article ever discovered which will exterminate them. A company of botanists, from the Horticultural Society of Paris, while amidst the ferns of Asia, observed that all insects lighting upon a certain kind of plant very soon dropped dead. This fact was made use of to guard their night camps from the intruders. Quantities of the plant was brought home by Mr. E. Lyon. and found a positive insect destroyer in every experiment It is simply a powdered leaf, chemically prepared to resist the effect of age and climate. Medals and Letters Patent have been obtained from the governments of England, Will you answer the question? Did you ever hear of any France, Germany and Russia, from the World's Fair, and numerous medical and horticultural colleges and societies. Letter from the President of the United States.

"EXECUTIVE MANSION, WASHINGTON, 31st Jan. 1854. MR. EMANUEL LYON. - Dear Sir: I have the pleasure to inform you that the Commission, of the World's Fair, at was the greatest discovery of the age?" Sold everywhere. London, have awarded you a Medal and Certificate for the

great value of your Magnetic Powders, &c. "MILLARD FILLMORE, Chairman." The above was accompanied by a certificate of Prince

IT IS FREE FROM POISON. NEW YORK, October 1st. 1858. MR. E. LYON -Dear Sir: We have analysed and tested your Magnetic Powders and find them perfectly harmless to mankind and domestic animals, but certain death when in-

haled by bugs, ants and insects. JAMES R. CHILTON, M. D., Chemist. LAURANCE REID, Prof. Chemistry, N. Y. Hospital. Mr. John L. Rome, Superintendant of the New York Hospital, says, "he has expelled all the bugs, ants, roaches, moths, &c., with Lyon's Magnetic Powder, and finds it of

Every gardner and housekeeper must have a direct interest in an article of this kind. Reference can be made to the Astor, St. Nicholas, and Metropolitan Hotels; to Judge Meigs, President of the American Institute; James Gordon Bennett, Gen. Winfield Scott, Cyrus W. Field, L. M. Pease, of the Five Points Mission, &c., &c. Judge Meigs says, This discovery of Prof. Lyon is of national importance. The Farmers' Club have tested it thoroughly. It will destroy locusts, grasshoppers, ants, moths, bugs, and all vermin Garden plants can be preserved, and houses made pure." Arrangements are now made through Messrs. BARNES & PARK, of New York, to bave it sold throughout the world. Many worthless imitations are advertised. Be cautious!

" NEW YORK, Nov. 8th, 1858. In retiring from business, I have sold all my Insect Powders and Pills, Letters Paptent, and the secrets pertaining thereto, to Messrs, Barnes & Park. The Powder is a discovery made by myself, and brought from the interior of Asia, and is unknown to any other persons. The genuine and effective article is put up in tin canisters, and will continue to bear my name. Rats and mice cannot be reached by a powder, and are killed by a Magnetic Pill. Order them through any mer-

'Tis Lyon's Powder kills insects in a trice, But Lyon's Pills are mixed for rats and mice. Sample flasks, 25 cents; regular sizes, 50 cents and \$1 co. Follow directions. Use freely and thoroughly.

Lumber, # M.,..... 0 00@6 00 7 00 @10 00 REVIEW OF THE WILMINGTON MARKET,

FOR THE WEEK ENDING JANUARY 6TH, 1859. Since our review of Thursday last the transactions in all kinds of country produce have been light, owing principally to the interruption of business caused by the holidays, and a general winding up of affairs preparatory to commencing the new year. The annual hiring of hands also taking place at this season, has materially affected the receipts of produce both by railroad and steamboats, and the quantity brought in for the past week or two has been small, but we may now look for moderate receipts as the river is in good boating order. For Naval Stores the market has ruled firm, except Tar, which has declined 10 cents. In Cotton we note a decided improvement in the market caused by favorable foreign advices, and it closes with an advancing tendency. Other articles remain unchanged, and below we give all the transactions we have been able to obtain up to the time of

TURPENTINE-Since closing our review on Thursday last the market has ruled steady at former quotations. The arrivals have been exceedingly light, being scarcely sufficient for distillers' uses, and the market closes firm at \$2 80 for virgin and yellow dip, and \$1 60 for hard. The transactions for the week foot up only 1,967 bbls., as follows:

Bbls. Virgin. Yel. Dip. New Hard. Monday..... 820...... 2 80...... 2 80...... 1 60 Tuesday..... 382...... 2 80...... 2 80...... 1 60 Wednesday... 480....... 2 80...... 2 80...... 1 60 Thursday..... 285....... 2 80...... 2 80...... 1 60 SPIRITS TURPENTINE .- The transactions during the week just ended have been small, owing mainly to the light receipts. The market ruled steady at 441 cents up to Wednesday, OLGATE'S PALE, No. 1 and Family Soap; Toilet Soap; when it closed at 1 cent advance, and all that could be reached we learn was taken at 45 cents-supposed to have been about 1,000 bbls. No sales this morning up to the time of

closing our report. We quote sales as follows: Friday 300 bbls. at 441 cents # gallon.

Rosin-We have no change of importance to notice in either grade during the past week. The receipts continue meagre, and there is at present but a small stock remaining unsold on market. For No. 1 there has existed a moderate demand, and the finer qualities sell quick at highest quotathere has been nothing done that we are aware of, and quo- Flaxseed, 197 bushels...... Juniper wood, 20 cords.... actions have been reported. There is some demand existing, but sellers generally are holding at figures above the TAR-The market has continued to rule quiet since our

last, and the transactions since Saturday have been at a decline of 10 cents. We quote sales as follows : Thursday..... 144 bbls. at \$1 90 29 bbl. Saturday 29 " " 1 90 " " Monday 523 " " 1 80 " " Wednesday . . . 197 " " 1 80 " " Thursday 91 " " 1 80 " "

BEEF CATTLE-But very few beeves have been brought to market for several weeks past, and butchers have only small stock on hand. We note a fair demand, and a good ciple adopted by us, and never devi- article sells readily at fair quotations. About 25 head stall ated from, of allowing none but PER- fatted (a prime lot) was received a day or two since and BARRELS-For Empty Spirits Turpentine barrels there has

existed a better demand since our last, and the transactions have been quite large. The receipts continue small, and the stock in first hands has become pretty much worked off. We note sales during the week of some 2500 second hand ones at prices ranging from \$1 60 to \$1 75 for lots as they run, and \$1 80 a \$1 85 each for selected-cash and 90

since our last review the market here has ruled quite active, and closes at a shade advance on previous quotations. The receipts for the week just ended have been meagre, (owing at 11; and 126 at 12 cents ? Ib. mainly to the holidays,) and nearly or quite all offered on market has changed hands. At the time of making up our report there is a fair demand from buyers, but for the want of stock to operate upon, the transactions must necessarily he confined to small and the state of those reported in our last as remaining unsold, holders effected sales at from 69 to 70 cents for North Carolina bushels. Some 1500 bushels Western in bags, sold at from 73 to 75 cents bushel of 56 lbs., bags inclube confined to small parcels for a few days. We quote sales during the week of 418 bales, as follows: Saturday, 140 bales at 10% to 11% cents for low to good middling; Monday, 135 do. at 111 cents for good middling; Tuesday, 132 do. at 11 cents for low middling, 114 a 112 cents for middling, and 112 cents for strict and good middling; and Wednesday, 11

do. at 112 cents for strict middling. CORN MEAL-Receipts from the country have been small for the past week or two, but we notice a fair stock on market, and demand limited. We quote from the granaries at 80 a 85 cents ? bushel, as in quantity.

FISH-Market poorly suppled. We refer to table for store

FLOUR-In this article we have no change of consequence to report since our last review. The arrivals both per river and railroad have been light, and the supply on market has become very much reduced; there is, however, but little demand from retailers, and the sales for the week have been confined to small parcels from store at \$5 50 for fine, \$5 75 for superfine, and \$6 \$\ bbl. for family-closing quiet. GRAIN .- In CORN we notice rather more firmness since our

last, and the price has gone up a shade. Only one lot of 1200 bushels (a prime article) received and sold at 65 cts. * bushel, cash. OATS. Are in moderate stock, and we have no change to report. No late receipts or sales .--PEAS .- The arrivals of Cou have been exceedingly light for some weeks past, and the stock on market has been materi ally reduced. We note a fair enquiry from dealers, and for a few parcels a shade advance on previous quotations could no doubt be obtained. We quote nominally at 70 a 75 cents B bushel .- RICE. For clean there is merely a retail de mand, and the market is fairly supplied. We quote small sales at 3 a 31 cents # 1b. In the rough article we hear of scarcely anything doing; Planters generally are holding at at 80 cents # bushel, which figure is above the views of buyers ;-one or two parcels, however, have been put upon market under peculiar circumstances and sold at a less price than

HAY-There have been no receipts of either description for the past week or two, and the stock of former arrivals remaining in dealers hands is quite small. We note a moderate demand existing, and a prime article would sell readily at a fair price. In the absence of sales quotations in table must be looked upon as merely nominal.

LIME—Has been in rather limited request since our last, and the supply on market may be considered fully fair for present purposes. Sells from store in the small way at \$1

LUMBER-River-Has been in moderate demand for the past week or two, and scarcely any has been brought to market for some time. Since our last two rafts have been received and sold at \$7 for scantling, \$9 for wide boards, and \$13 W M. for flooring boards.

Molasses-Cuba is in very small stock, but we notice merely a retail demand ;-one or two parcels received coast- of England has increased £203,000. Money was more active. wise, and gone into store. Selling, at quotations in table, as in quantity and quality. PEA NUTS-Have been brought in slowly during the week

just ended; there has, however, been but little demand, and

the market has ruled dull at \$1 25 a \$1 40 79 bushel. POTATOES-For Sweet there is a brisk demand, and but few arriving. We quote at 50 a 60 cents # bushel. Provisions .- In the Bacon market we have nothing new to report. There is a moderate supply of old (N. C. cured) E. Hall. in store, and the demand is limited. We learn that one lot of 15,000 lbs. changed hands a few days since on private terms. We refer to our table for prices. One or two small lots of new have been brought in and sold, but they were not sufficient to establish a quotation. For Western cured the

market has ruled inactive at former prices; light supply in store, and demand limited. See table for rates. LARD -Both N. C. and Western make are in moderate stock, and with a meagre demand the market has ruled exceedingly dull. We continue to quote at 111 a 12 cents # lb. PORK-Northern is in small stock, and with a moderate enquiry the market has ruled firm. See table for prices, at which sales have taken place from store. The arrivals of fresh have been quite light, and we notice a brisk demand. Sales from carts at 8 a 9 cents # 1b.

SALT .- For Liverpool ground the demand appears to have become checked, and the market has ruled dull during the week. About 2,000 sacks were received coastwise a few days since, which have been stored, and selling at 95 cents a \$1 \$2 sack, according to quantity. Alum continues in good stock, and is dull of sale. We quote from store at 16 a 20

cents W bushel. Shingles .- No receipts or sales that we can learn of during the past week; market dull. See table for quota-

tions of last sales. TIMBER.-We have no change worthy of note to make in the market for this article. Receipts light, but sufficient for the demand at present existing. We quote sales during the week of 10 a 12 rafts at prices ranging from \$4 50 to \$8 50 # M.—the latter price for a prime article.

FREIGHTS .- No change to make in former quotations, and the market rules firm for coastwise. Nearly or all the vessels now in port have been taken up at prices quoted in our table.

COMPARATIVE TABLE OF EXPORTS Of the principal articles from the Port of Wilmington, N. C., for the year ending 31st December, 1858, as compiled from reports of the Daily Journal, and compared with those of the year 1857:

BŒRHAVE'S

HOLLAND BITTERS. THE CELEBRATED HOLLAND REMEDY FOR DYSPEPSIA, DISEASE OF THE KIDNEYS, LIVER COMPLAINT, WEAKNESS OF ANY KIND

FEVER AND AGUE, And the various affections consequent upon a disorde red STOMACH OR LIVER,

Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic, and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a decided cure. This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Borhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our father-land scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly won-derful medicinal virtues must be acknowledged. It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally, instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system. in the system.

NOTICE.—Whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it

remedial properties. The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing. Be not pursuaded to buy anything else until you have given Borhave's Holland Bitters a fair trial. One bottle will convince you how infinitely superior it is to all these

will prove a grateful aromatic cordial, possessed of singular
